The NRV Food Assistance Directory

2023-2024

Connecting community members to food assistance programs

This directory contains the details of food assistance programs in the New River Valley within the counties of Floyd, Giles, Montgomery, and Pulaski as well as the city of Radford. We hope that community members seeking food assistance find it to be a useful resource to get connected to the assistance they need. Please note that the information in this directory may have changed since it was collected in early spring 2023. We recommend contacting the program ahead of time to ensure you have the most up-to-date information.

What information is in this directory?

The directory is organized alphabetically with section for each county as well as the city of Radford. We list several details for each program, including whether the program has more than one food assistance initiative. Please see below for an example entry and the details on what each section means. If a program's listing is highlighted in gray (like the one below), that means anyone in need is eligible to utilize one or more of their programs.

About NRV Thrive

NRV Thrive is an initiative through the Community Foundation of the New River Valley. Thrive is a network of organizations addressing food security and food access issues.

These organizations address these issues in many ways, including farms, food banks and pantries, community gardens, and meals programs -- all with the shared goal of helping more people in our community thrive.

By working together through the Thrive network, we are able to better address regional needs. To learn more about our work or access this directory, please visit cfnr.org/thrive or the below QR code.
