Community Conversation
Barriers, Impact, Energy

Over 100 community members gathered on November 14, 2019 to learn about Healthy Roots and identify priorities for improving health and wellbeing in our region. Participants reviewed the priority needs identified in the 2018 Community Health Needs Assessment. Each priority was listed on a sign in the large meeting space. Participants were then asked to move around among these priorities in response to three questions:

1. Which of the priorities do you perceive to be the **greatest barrier** for those you work with?
2. If we could address one priority area, which one do you think would have the **greatest impact** in our region?
3. Around which priority do you think there is the **greatest energy** to act?

The following images capture the individuals who moved to each priority area for each question.

greatest barrier

Which of the CHA priorities do you perceive to be the greatest barrier for those you work with?

Access to care 

Affordable/safe housing 

Child abuse/domestic violence 

Culture: healthy behaviors not a priority 

Lack of knowledge of community resources 

Poverty/low average household income 

Substance use 

Transportation/transit system 

greatest impact

If we could address one priority area, which one do you think would have the greatest impact on our region?

Access to care

Affordable/safe housing

Child abuse/domestic violence

Culture: healthy behaviors not a priority

Lack of knowledge of community resources

Poverty/low average household income

Substance use

Transportation/transit system

greatest energy

Around which priority area do you think there is the greatest energy?

Access to care 

Affordable/safe housing 

Child abuse/domestic violence

Culture: healthy behaviors not a priority 

Lack of knowledge of community resources 

Poverty/low average household income 

Substance use 

Transportation/transit system
